# ▼ ABOUT

Royal Bermuda, hailing from Oeiras, Portugal, is fruit of a long-date friendship between two friends, who share the passion for Music, the Guitar, and the Bohemian lifestyle, and have the will to create something which would fill a void in the musical scene they believe exists. In January 2019 their first EP "Paraíso Cafajeste" was published, which presentation tour brought them to stages such as Casa da Música, Serralves, Teatro Ibérico, and Musicbox, and to festivals such as Boom Festival, Soam as Guitarras, Reverence Sons no Património, among others.

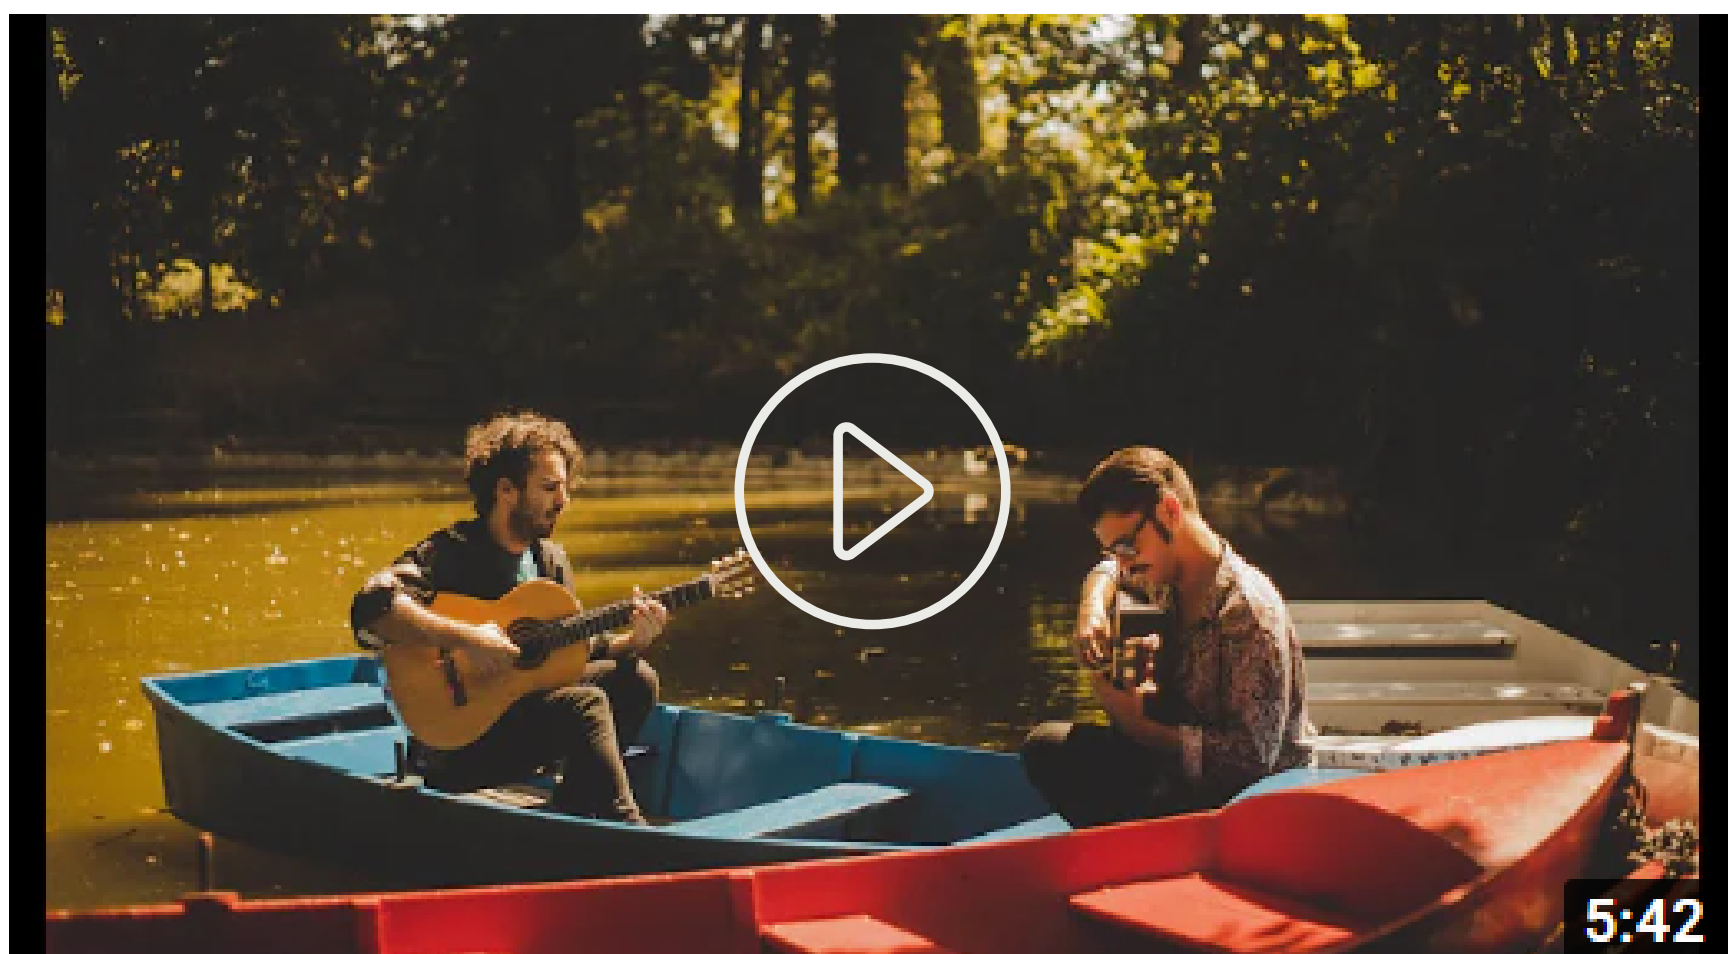

# SEMPITERNA \* ROYAL BERMUDA

In March and April 2022, respectively, they debuted the singles "À Antiga" and "Nha Preta", prenouncing the arrival of the long-promised album "Sempiterna", to be launched on the 30th of September 2022 and followed by a presentation 2022/23 Tour where they will be accompanied by the percussionist Duarte Loureiro.

Within their music many influences are felt and heard, making it difficult to define in musical genres their compositions; Alas, a term is proposed, named "Exótica Saudade" - roughly translated to "The exotic longing for someone or something".
